EXPERIENCE

E-commerce & Digital Media Startup — Dongguan,China

Co-Founder & Tech Operations Lead — Nov 2024 – April 2025

- **AI-Powered Growth:** Scaled daily GMV to $2,000 by engineering GenAI workflows for content automation, significantly reducing Customer Acquisition Cost (CAC).
- **Risk Control System (Python):** Designed a risk monitoring system using Python to manage 50+ proxy nodes and device fingerprints, effectively mitigating platform bans and ensuring business continuity.
- **Web Deployment:** Independently deployed a cross-border WordPress site on Hostinger, optimizing DNS and server settings for global traffic routing.

Dongguan Yisu Network Technology Co., Ltd. — Dongguan,China

Product Development Assistant — July 2024 – Aug 2024

- **Market Analytics:** Identified market gaps and drove product selection by conducting data-driven competitor and pricing analysis on Amazon.
- **Product Strategy:** Translated user feedback and SEO data into actionable product specifications, bridging market demand with supply chain execution.

SWUST & Decheng Creative Center (Academic-Industry) — Sichuan,China

Product Strategy Assistant (Advisor: Assoc. Prof. Wu Fan) — Jun 2022 – May 2024

- **Strategic Storyboarding:** Synthesized lean innovation methodologies into a 2,000+ page strategic deck, adopted as official postgraduate teaching material and presented at top-tier institutions (e.g., UESTC).
- **User-Centric Consulting:** UX Strategy & Multi-Constraint Analysis: Facilitated product dialogues with cross-industry top brands (e.g., XGIMI, New Hope Dairy). Executed user scenario research for Changhong, establishing a multi-constraint evaluation framework that seamlessly aligned user pain points with enterprise business goals and manufacturing feasibility.
